I have returned to the Visual Analytics Group on 19 February, and assist Zhaosong Huang of the project VAUD.

I learned a great deal of knowledge about JavaScript these days. And I can work independently to construct some simple homepage, I have signed up in Github for constructed my own blog.

And Zhaosong Huang and other senior fellow have assisted with my JavaScript learning. Also, Zhaosong Huang has given me some tasks. I have finished most of tasks.

I have dinner with teacher Ross on Friday and he is awesome, approachable and humorous.

Well, I have made a plan for the first half of the year.
